Likorall® Overhead Lifts
200, 242, 250

Likorall® Overhead Lift

A THOUGHTFUL, USER-FRIENDLY DESIGN WITH A STRONG FOCUS ON SAFETY.

The Likorall lift is known for all these and more, making this overhead lift system a good fit for a variety of healthcare settings.

Safety First, Every Time

- Mechanical or electrical emergency lowering available
- Patented safety drum adds extra security and ensures even, controlled lowering
- Safety Squeeze Protection Limit Switch protects the lift motor from mechanical strain and helps prevent injuries to patients and caregivers
- Room-to-room (R2R) model helps you efficiently move patients between rooms without a continuous rail connection
- On the ES model, the hand control can help you navigate through switches and turn tables.
- UltraTwin ceiling mounted lift system consists of two Likorall lift motors that provide a combined lifting capacity.
- Safe Working Load
 - + Standard models: 200-250 kg / 440-550 lbs, depending on model
 - + UltraTwin model: 400-500 kg / 880-1,110 lbs, depending on model

Moving the Lift Motor (excluding LR242 S and LR 242 ES)

The Quick-Release Hook™ Carriage makes it easy to move the system between rooms.

In-Rail Charging (Likorall 250 S IRC only)

The lift unit is constantly charged along the complete rail system, so it's always ready for use.

ABOUT HILLROM

Hillrom is a global medical technology leader whose 10,000 employees have a single purpose: enhancing outcomes for patients and their caregivers by advancing connected care. Around the world, our innovations touch over 7 million patients each day. They help enable earlier diagnosis and treatment, optimize surgical efficiency and accelerate patient recovery while simplifying clinical communication and shifting care closer to home. We make these outcomes possible through connected smart beds, patient lifts, patient assessment and monitoring technologies, caregiver collaboration tools, respiratory care devices, advanced operating room equipment and more, delivering actionable, real-time insights at the point of care.
